

Switch In

→ Introductions

This type of isolated contact or proximity
Operation mode, output function can be set with
The input, output, and each other.

This apparatus was designed kinds of advantages, response etc. It can be used in DCS, PLC and other control systems.

→ Parameters

Explosive-proof grade

Power supply (9+,10-)

Input (1-, 2+)

Signal type
Switching trigger point

Input resistance
Short-circuit current
Open-circuit voltage

LFD function

Input current 80μA
Input current 6mA

Output (5, 6; 7, 8)

Signal type
Load capacity

Exp o

LM
